Sharing the load

12" Digital Cluster

- » Fully digitalized display screen
- » Themes tailored to the selected driving mode
- » Driving Assistant features that enhance comfort and safety
- » Customizable driving displays
- » Driving score screen based on distance traveled, driving time, average speed, and fuel consumption
- » Various lighting and vehicle animations

12.4" Multimedia

- » 12.4" large touchscreen display
- » Applications compatible with Android Auto and Apple CarPlay
- » Driving mode transitions, vehicle lighting control, and welcome animations at start-up
- » Easy-to-use interface menus for vehicle-related information such as tire pressure, load data, battery voltage levels, and oil status
- » Customizable menus

Electronic Park Break

- » Automatic activation when the ignition is turned off or the driver's door is opened
- » Automatic deactivation when the vehicle is in D or R and the accelerator is pressed for a certain duration
- » Ability to activate while in motion using Roll Test Mode, adjusting intensity based on the pulling force to trigger EBS braking
- » Easy-to-understand active status indicator with red and blue color coding

Autohold Function

- » Ability to hold the vehicle at a complete stop without the driver keeping the brake pedal pressed
- » Automatic activation of the parking brake if the system detects that the driver has left the vehicle while the hold function is active

Keyless Start

- » Gradual vehicle start-up feature
- » User-friendly design integrated into the front console for easy operation

Max Lock

- » Manually operated locking system developed in addition to the automatic lock system to prevent potential theft and enhance driver safety

Wireless Charger

- » Easy phone charging experience
- » Compatibility with all phones supporting Qi v1.3
- » Active fan cooling in addition to passive cooling to prevent potential overheating issues caused by environmental conditions
- » Charging automatically stops when a metal object is detected

New Steering Wheel Cover & New Ceramic View Ford Badge

- » New chrome finish located beneath the steering wheel hub
- » Color change in the steering wheel control buttons

Ambient Lighting

- » Color-adjustable lighting positioned under the front console and on the shelf units in the sleeping area
- » Adjustable via the multimedia screen and bedside touchscreen panel
- » Cabin lighting designed to provide home-like comfort

BED SIDE DESIGN

7" Bed Side Touch Screen & USB-C

- » 7" Touchscreen control unit located next to the bed
- » Easy access to audio, lighting, window/sunroof open-close, heating, door lock, and digital mirror camera system

EXTERIOR DESIGN

Body Color Grill

- » Premium, modern, and bold appearance
- » Integrated grille with the overall design, homogeneous and body-matching

Black Headlamp Bezel

- » Offered with halogen and LED low beam options
